Q&A
SUMMARY OF POLICY AND REGULATIONS REVISIONS/ADDITIONS FOR THE LCCS BOARD MEETINGS ON MARCH 7, 2022 AND APRIL 18, 2022

P 2415.05  
Student Surveys, Analysis, Evaluations, Examinations, Testing, or Treatment (Mandated) (Revised)
This policy, which addresses the issue of a school administering a survey, analysis, etc. funded in whole or in part by a program of the USDOE, has been rewritten to provide additional detail based on Federal Code requirements and replaces the original policy.

P & R 2431.4  
Prevention and Treatment of Sports-Related Concussions and Head Injuries (Mandated) (Revised)
This policy and regulation have been rewritten to address the revisions in NJ law to include intramural sports along with interscholastic sports and cheerleading programs. In addition, the new law requires schools to implement a graduated, six-step return-to-competition process developed by the CDC, which are incorporated in the regulation guide. The policy and regulation cover Kindergarten through 8th grade at LCCS. These documents replace the current ones.

P & R 2622  
Student Assessment (Mandated) (Revised)
This policy has been rewritten to reflect recent revisions in the NJ Administrative Code. Strauss Esmay developed a new regulation guide which aligns to the revisions in the code. The NJDOE is implementing an approved English language proficiency assessment for English Language Learners with IEPs. Another change is that the Head of School is now required to report only the final results of the annual assessments to the Board and public.

P3233  
Political Activities (Recommended) (Revised)
This policy has been revised to change the term “County Board of Chosen Freeholders” to Board of County Commissioners,” based on administrative code revisions. Other minor wording revisions have been included.

P5541  
Anti-Hazing (Mandated) (New)
A new state law that went into effect on March 1, 2022 requires schools, including middle schools, to adopt an anti-hazing policy. This new policy includes definitions of hazing, reporting, investigations, involvement of law enforcement, and penalties. (If, after investigation, an incident appears to be HIB, the school would conduct a separate investigation for that. Also note that the NJDOE did not provide a lot of detail on investigating incidents, so Strauss Esmay recommends hazing claims be investigated using the same procedures as student code of conduct violations in Policy 5600. If the state releases additional guidance, Strauss Esmay will update the policy accordingly.

P & R 8465  
Bias Crimes and Bias-Related Acts (Mandated) (Revised)
These have been updated to align with NJ administrative code and the Uniform State Memorandum of Agreement Between Education and Law Enforcement Officials addendum regarding bias acts. “Gender identification” and “national origin” have been added to the protected classes. “School property” has been changed to “school grounds.” Reporting to law enforcement is now “prompt” instead of “immediate.” (Note: there are some difference between the code and the MOU. Strauss Esmay has revised the guides to reflect the administrative code.)

P9560  
Administration of School Surveys (Mandated) Revised)
When Strauss Esmay set up our policies and regulations in 2014, they duplicated P 2415.05 (see above). They are now separating the two documents – 2415.05 addresses Federal law and 9560, State Law. The policy has been re-written based on a new state statute allowing schools to
administer anonymous, voluntary surveys, evaluations, etc. concerning student health, behaviors, and relationship questions but only with parental permission. The new policy includes the process for informing parents and the topics that can be asked.
The Protection of Pupil Rights Amendment (PPRA) (20 USC §1232h; 34 CFR Part 98) applies to school districts that receive funding from the United States Department of Education (USDOE). The PPRA requires written consent from parents or the emancipated student the opportunity to opt out of participation in a survey, analysis, evaluation, examination, testing, or treatment funded in whole or in part by a program of the United States Department of Education that concerns one or more of the areas outlined in this Policy.

N.J.S.A 18A:36-34

Adopted:
A concussion is a traumatic brain injury caused by a direct or indirect blow or motion to the head or body that disrupts the normal functioning of the brain and can cause significant and sustained neuropsychological impairments including, but not limited to, problem solving, planning, memory, and behavioral problems. In order to ensure the safety of students that participate in athletic competition, interscholastic athletics and cheerleading programs, it is imperative that student-athletes, cheerleaders, coaches and parents are educated about the nature and treatment of sports-related concussions and other head injuries. Allowing a student-athlete or cheerleader to return to athletics play before recovering from a concussion increases the chance of a more serious brain injury.

Every school that participates in interscholastic athletics or cheerleading programs is required to adopt a policy concerning the prevention and treatment of sports-related concussions and other head injuries among student-athletes and cheerleaders in accordance with the provisions of N.J.S.A. 18A:40-41.1 et seq. For the purpose of this Policy, “interscholastic athletics” athletic competition shall include middle school interscholastic athletic programs where school teams or squads play teams or squads from other schools, intramural athletic programs within a school, and any cheerleading program or activity in the school. shall be fifth through eighth grade school-sponsored athletic programs where teams or individuals compete against teams or individuals from other schools or school schools. For the purpose of this Policy, “cheerleading program” shall be fifth through eighth grade school-sponsored cheerleading programs.

The school will adopt an Interscholastic Athletic and Cheerleading Head Injury Training Program athletic head injury safety training program to be completed by the school physician, any individual who coaches in an athletic competition, an athletic trainer involved in any athletic competition, and the school nurse. to be completed by the team or school physician, licensed athletic trainer(s) involved in the interscholastic athletic program, all staff members that coach an interscholastic sport or cheerleading program, designated school nurses, and other appropriate school personnel as designated by the Head of School. This training program shall be in accordance with guidance provided by the New Jersey Department of Education and the requirements of N.J.S.A. 18A:40-41.2.

The Principal or designee The school shall annually distribute the NJDOE-developed New Jersey Department of Education Concussion and Head Injury fact sheet regarding sports-related concussions and other head injuries to all parents of students participating in any athletic competition or practice and shall obtain a signed acknowledgment of the

receipt of the fact sheet by the student and their parent in accordance with N.J.S.A. 18A:40-41.2(c) and Parent/Guardian Acknowledgement Form to every student athlete who participates in interscholastic sports and every cheerleader who participates in a cheerleading program. The Principal or designee shall obtain a signed acknowledgement of the receipt of the Fact Sheet by the student-athlete or cheerleader’s parent and keep on file for future reference.

Prevention of a sports-related concussion and head injuries is an important component of the school’s program. The school may require pre-season baseline testing of all student-athletes and cheerleaders before the student begins participation in an interscholastic athletic or cheerleading program.

Any student-athlete or cheerleader who exhibits the signs or symptoms of a sports-related concussion or other head injury during practice or competition shall be immediately removed from play and may not return to play that day. Emergency medical assistance shall be contacted when symptoms get worse, loss of consciousness, direct neck pain associated with the injury, or any other sign the supervising school staff member determines emergency medical attention is needed. If available when the student-athlete or cheerleader is exhibiting signs or symptoms, the student will be evaluated by the school or team physician. The Principal or designee shall contact the student’s parent and inform the parent of the suspected sports-related concussion or other head injury.

Possible signs of a concussion can be observed by any school staff member or the school or team physician. Any possible symptoms of a concussion can be reported by the student-athlete or cheerleader to: coaches; licensed athletic trainer; school or team physician; school nurse; and/or parent. The Principal or designee shall provide the student-athlete or cheerleader with Board of Trustees approved suggestions for management/medical checklist to provide to their parent and physician or other licensed healthcare professional trained in the evaluation and management of sports-related concussions and other head injuries.

A student who participates in an athletic competition or practice and who sustains or is suspected of sustaining a concussion or other head injury shall be immediately removed from athletic competition or practice. A student removed from athletic competition or practice shall not participate in further athletic competition or practice until they are evaluated by a physician or other licensed healthcare provider trained in the evaluation and management of concussions and receives written clearance from a physician trained in the evaluation and management of concussions to return to athletic competition or practice; and the student returns to regular school activities and is no longer experiencing symptoms of the injury when conducting those activities in accordance with N.J.S.A. 18A:40-41.4.
The return of a student to athletic competition or practice shall also be in accordance with the graduated, six-step “Return to Play Progression” recommendations and any subsequent changes or other updates to these recommendations as developed by the Centers for Disease Control and Prevention (CDC). The Board shall revise this Policy and Regulation 2431.4 whenever the CDC changes or otherwise updates the “Return to Play Progression” recommendations.

The school shall provide a copy of this Policy and Regulation 2431.4 to all youth sports team organizations that operate on school grounds. In accordance with the provisions of N.J.S.A. 18A:40-41.5, the school shall not be liable for the injury or death of a person due to the action or inaction of persons employed by, or under contract with, a youth sports team organization that operates on school grounds, if the youth sports team organization provides the school proof of an insurance policy in the amount of not less than $50,000 per person, per occurrence insuring the youth sports team organization against liability for any bodily injury suffered by a person and a statement of compliance with the school’s Policy and Regulation 2431.4 - Prevention and Treatment of Sports-Related Concussions and Head Injuries.

Pursuant to N.J.S.A. 18A:40-41.5 and for the purpose of this Policy, a “youth sports team organization” means one or more sports teams organized pursuant to a nonprofit or similar charter or which are member teams in a league organized by or affiliated with a county or municipal recreation department.

This Policy and Regulation 2431.4 shall be reviewed and approved by the school physician and shall be reviewed annually, and updated as necessary, to ensure it reflects the most current information available on the prevention, risk, and treatment of sports-related concussion and other head injuries in accordance with N.J.S.A. 18A:40-41.3..

18A:40-41.4; 18A:40-41.5

Adopted:
A concussion is a traumatic brain injury caused by a direct or indirect blow or motion to the head or body, that disrupts the normal functioning of the brain and can cause significant and sustained neuropsychological impairments including, but not limited to, problem solving, planning, memory, and behavioral problems. Allowing a student-athlete or cheerleader to return to athletic competition or practice play before recovering from a concussion increases the chance of a more serious brain injury that can result in severe disability and/or death. The following procedures shall be followed to implement N.J.S.A. 18A:40-41.1 et seq. and Policy 2431.4.

A. Athletic Interscholastic Athletic/Cheerleading Program Head Injury Safety Training Program

1. The school will adopt an Interscholastic Athletic/Cheerleading Program Head Injury Training Program.
2. The training program shall be completed by the school or team physician, licensed athletic trainer(s) involved in the interscholastic athletic program, all staff members that coach an interscholastic sport or cheerleading program, designated school nurses, and other appropriate school personnel as designated by the Head of School. Any individual who coaches in an athletic competition, an athletic trainer involved in any athletic competition, and the school nurse.

B. Prevention

1. The school may require pre-season baseline testing of all student-athletes and cheerleaders before the student begins participation in an athletic competition or practice interscholastic athletic program or activity or cheerleading program. The baseline testing program shall be reviewed and approved by the school or team physician trained in the evaluation and management of sports-related concussions and other head injuries.
2. The Principal or designee will review educational information for student athletes and cheerleaders on prevention of concussions.

3. All school staff members, students participating in athletic competitions or practice-athletes, cheerleaders, and parents of students participating in athletic competition or practice-athletes and cheerleaders shall be informed through the distribution of the New Jersey Department of Education Concussion and Head Injury Fact Sheet and Parent/Guardian Acknowledgement Form and other communications from the Principal and coaches on the importance of early identification and treatment of concussions to improve recovery.

C. Signs or Symptoms of Concussion or Other Head Injury

1. Possible signs of concussions can be observed by coaches, licensed athletic trainer, school or team physician, school nurse, or other school staff members. Possible signs of a concussion may be, but are not limited to, the student-athlete or cheerleader:
   a. Appears dazed, stunned, or disoriented;
   b. Forgets plays, or demonstrates short-term memory difficulty;
   c. Exhibits difficulties with balance or coordination;
   d. Answers questions slowly or inaccurately; and/or
   e. Loses consciousness.

2. Possible symptoms of concussion shall be reported by the students participating in athletic competition or practice-athlete or cheerleader to coaches, licensed athletic trainer, school or team physician, school nurse, and/or parent. Possible symptoms of a concussion are, but not limited to:

1. Any student who participates in athletic competition or practice and who sustains or is suspected of having sustained a athlete or cheerleader who is exhibiting the signs or symptoms of a sports-related concussion or other head injury while engaged in during practice or athletic competition shall immediately be removed from athletic competition or practice and activities and may not return to the practice or competition that day.

2. A The school staff member supervising the student during the athletic competition or practice-athlete or cheerleader when the student is exhibiting signs or symptoms of a sports-related concussion or other head injury shall immediately contact the school physician, athletic trainer, or school nurse to examine the student. Emergency medical assistance when symptoms get worse, loss of consciousness, direct neck pain associated with the injury, or any other sign the supervising school staff member determines emergency medical attention is needed.

   (1) The school physician, athletic trainer, or school nurse shall determine if the student has sustained or may have sustained a concussion or other head injury. The school physician, athletic trainer, or school nurse shall

   a. In the event the school or team physician is available when the student-athlete or cheerleader is exhibiting signs or
symptoms of a sports-related concussion or other head injury, the physician may determine if the determination to call emergency medical responder shall be called to athletic competition or practice assistance.

(2) In the event the school physician, athletic trainer, or school nurse determine the student did not sustain a concussion or other head injury, the student shall not be permitted to participate in any further athletic competition or practice until written medical clearance is provided in accordance with E, below.

23. The school staff member supervising the student who has been an athlete or cheerleader when the student is exhibiting signs or symptoms of a sports-related concussion or other head injury during practice or competition shall report the occurrence to the Principal or designee. The Principal or designee shall contact the student’s parent and inform the parent of the suspected sports-related concussion or other head injury.

E. Sustained Concussion or Other Head Injury

1. A student-athlete or cheerleader who participates in interscholastic athletics or cheerleading program and who sustains or is suspected of sustaining a concussion or other head injury shall immediately be removed from practice or competition and shall be required to have a medical examination conducted by their physician or licensed health care provider. The student’s physician or licensed health care provider shall be trained in the evaluation and management of concussion to determine the presence or absence of a sports-related concussion or head injury.

2. The student-athlete or cheerleader suspected of sustaining a concussion or other head injury shall be provided a copy of Board of Trustees Policy and Regulation 2431.4 and a copy of Board of Trustees approved suggestions for management/medical checklist to provide to their parent and their physician or licensed health care professional.

3. The student-athlete or cheerleader’s physician must provide to the school, upon the completion of a medical examination, a written medical release/clearance when the student is able to return to the activity. The release/clearance must indicate:
a. The medical examination determined the injury was not a concussion or other head injury, the student is asymptomatic at rest, and the student may return to the interscholastic athletic or cheerleading activity; or

b. The medical examination determined the injury was a concussion or other head injury, the student is asymptomatic at rest, and can begin the graduated return to competition and practice protocol outlined in F. below.

A medical release/clearance not in compliance with this requirement will not be accepted. The student-athlete or cheerleader may not return to the activity or begin the graduated return to competition and practice protocol until he/she receives a medical evaluation and provides a medical clearance/release that has been reviewed and approved by the school or team physician.

4. Complete physical, cognitive, emotional, and social rest is advised while the student is experiencing symptoms and signs of a sports-related concussion or other head injury. (Minimize mental exertion, limit over-stimulation and multi-tasking, etc.)

E. Medical Examination and Written Medical Clearance

1. A student who was removed from athletic competition or practice in accordance with D.1. shall not participate in further athletic competition or practice until:

a. The student is examined by a physician or other licensed healthcare provider trained in the evaluation and management of concussions;

b. The student receives written medical clearance from a physician trained in the evaluation and management of concussions to return to competition or practice; and

c. The student returns to regular school activities and is no longer experiencing symptoms of the injury while conducting those activities.
2. The student’s written medical clearance from a physician must indicate a medical examination has determined:
   a. The student’s injury was not a concussion or other head injury, the student is asymptomatic at rest, and the student may return to regular school activities and is no longer experiencing symptoms of the injury while conducting those activities; or
   b. The student’s injury was a concussion or other head injury and the student’s physician will monitor the student to determine when the student is asymptomatic at rest and when the student may return to regular school activities and is no longer experiencing symptoms of the injury while conducting those activities.

3. The student’s written medical clearance must be reviewed and approved by the school physician.

4. The student may not begin the graduated return to athletic competition and practice protocol in F. below until the student receives a medical examination and provides the required written medical clearance.

5. A written medical clearance not in compliance with the provisions of E. will not be accepted.

F. Graduated Return to Athletic Competition and Practice Protocol

1. The return of a student to athletic competition and practice shall be in accordance with the graduated, six-step “Return to Play Progression” recommendations and any subsequent changes or updates to those recommendations as developed by the Centers for Disease Control and Prevention.

   a. Back to Regular Activities (Such as School)

      The student is back to their regular activities (such as school) and has the green-light from the student’s physician approved by the school physician to begin the return to play process. A student’s return to regular activities involves a stepwise process. It starts with a few days of rest (two-
three days) and is followed by light activity (such as short walks) and moderate activity (such as riding a stationary bike) that do not worsen symptoms.

b. Light Aerobic Activity

Begin with light aerobic exercise only to increase the student’s heart rate. This means about five to ten minutes on an exercise bike, walking, or light jogging. No weight lifting at this point.

c. Moderate Activity

Continue with activities to increase the student’s heart rate with body or head movement. This includes moderate jogging, brief running, moderate-intensity stationary biking, and/or moderate-intensity weightlifting (less time and/or less weight from their typical routine).

d. Heavy, Non-Contact Activity

Add heavy non-contact physical activity, such as sprinting/running, high-intensity stationary biking, regular weightlifting routine, and/or non-contact sport-specific drills (in three planes of movement).

e. Practice and Full Contact

The student may return to practice and full contact (if appropriate for the athletic competition) in controlled practice.

f. Athletic Competition

The student may return to athletic competition or practice.
2. It is important for a student’s parent(s) and coach(es) to watch for concussion symptoms after each day’s “Return to Play Progression” activity. A student should only move to the next step if they do not have any new symptoms at the current step.

3. If a student’s symptoms return or if they develop new symptoms, this is a sign that a student is pushing too hard. The student should stop these activities and the student’s health care provider should be contacted. After more rest and no concussion symptoms, a student can start at the previous step if approved by the student’s healthcare provider and provides written medical clearance to the school physician.

1. Upon the school physician’s acceptance of the written medical release/clearance, the student-athlete or cheerleader may begin a graduated return to competition and practice protocol supervised by a licensed athletic trainer, school or team physician, or designated school nurse trained in the evaluation and management of concussions and other head injuries. The following steps shall be followed:

   **Step 1** — Completion of a full day of normal cognitive activities (attendance at school, studying for tests, watching practice, interacting with peers, etc.) without re-emergence of any signs or symptoms. If there is no return of signs or symptoms of a concussion, the student-athlete or cheerleader may advance to Step 2 below on the next day. If a re-emergence of any signs or symptoms of a concussion occur, the student shall be required to have a re-evaluation by their physician or licensed healthcare provider. The student shall not be permitted to begin the graduated return to competition and practice protocol until a medical clearance, as required in E.3. above, is provided and approved by the school or team physician.

   **Step 2** — Light aerobic exercise, which includes walking, swimming, or stationary cycling, keeping the intensity less than 70% maximum percentage heart rate. There shall be no resistance training. The objective of this Step is increased heart rate. If there is no return of any signs or symptoms of a concussion, the student-athlete or cheerleader may advance to Step 3 below on the next day. If a re-emergence of any signs or symptoms of a concussion occur, the student shall return to Step 1.
Step 3 - Sport-specific exercise including skating and/or running. There shall be no head impact activities. The objective of this Step is to add movement and continue to increase the student athlete or cheerleader’s heart rate. If there is no return of any signs or symptoms of a concussion, the student may advance to Step 4 below on the next day. If a re-emergence of any signs or symptoms of a concussion occur, the student shall return to Step 2.

Step 4 - Non-contact training drills such as passing drills, agility drills, throwing, catching, etc. The student athlete or cheerleader may initiate progressive resistance training. If there is no return of any signs or symptoms of a concussion, the student may advance to Step 5 below on the next day. If a re-emergence of any signs or symptoms of a concussion occur, the student shall return to Step 3.

Step 5 - The student’s medical condition, upon completing Step 4 with no return of any signs or symptoms of a concussion, shall be evaluated for medical clearance based upon consultation between the school’s licensed athletic trainer, school or team physician, designated school nurse, and the student’s physician. After this consultation and upon obtaining written medical release/clearance approved by the school or team physician, the student may participate in normal training activities. The objective of this Step is to restore the student’s confidence and for the coaching staff to assess the student’s functional skills. If there is no return of any signs or symptoms of a concussion, the student may advance to Step 6 below on the next day. If a re-emergence of any signs or symptoms of a concussion occur or if the student does not obtain medical release/clearance to proceed to Step 6, the school or team physician, in consultation with the student’s physician, shall determine the student’s return to competition and practice protocol.

Step 6 - Return to play involving normal exertion or game activity. If the student exhibits a re-emergence of any concussion signs or symptoms once he/she returns to physical activity, he/she will be removed from further activities and returned to Step 5.

G. Temporary Accommodations for Students Participating in Athletic Competition - Athletes and Cheerleaders with Sports-Related Head Injuries
1. Rest is the best “medicine” for healing concussions or other head injuries. The concussed brain is affected in many functional aspects as a result of the injury. Memory, attention span, concentration, and speed of processing significantly impact learning. Further, exposing the concussed student to the stimulating school environment may delay the resolution of symptoms needed for recovery. Accordingly, consideration of the cognitive effects in returning to the classroom is also an important part of the treatment of sports-related concussions and head injuries.

2. Mental exertion increases the symptoms from concussions and affects recovery. To recover, cognitive rest is just as important as physical rest. Reading, studying, computer usage, testing, texting, and watching movies if a student is sensitive to light/sound, can slow a student’s recovery. In accordance with the Centers for Disease Control’s toolkit on managing concussions, the Board of Trustees may look to address the student’s cognitive needs in the following ways. Students who return to school after a concussion may need to:

   a. Take rest breaks as needed;
   b. Spend fewer hours at school;
   c. Be given more time to take tests or complete assignments (all courses should be considered);

State assessments provide parents with important information about their child’s progress; detailed diagnostic information about each individual student’s performance that educators, parents, and students can utilize to enhance foundational knowledge and student achievement; and include item analysis which will clarify a student’s level of knowledge and understanding of a particular subject or area of a subject. The data derived from State assessments are utilized by teachers and administrators to pinpoint areas of difficulty and customize instruction accordingly. Such data can be accessed and utilized as a student progresses to successive school levels.

The Commissioner of Education, in accordance with N.J.S.A. 18A:7C-1 et seq. and 18A:7E-2 and 3, may implement assessments of student achievement in any grade(s) and by such assessments as he or she deems appropriate. The system and related schedule of Statewide assessments shall be approved by the New Jersey State Board of Education. The school district shall, according to a schedule prescribed by the Commissioner, administer the applicable Statewide assessments pursuant to N.J.A.C. 6A:8-4.1(c) and (d). The Commissioner shall report to the State Board of Education the results of such assessments. The school district shall, according to a schedule prescribed by the Commissioner, administer the applicable Statewide assessments pursuant to N.J.A.C. 6A:8-4.1(c) and (d).

The Commissioner shall implement a system and related schedule of Statewide assessments to evaluate student achievement of the New Jersey Student Learning Standards (NJSLS). The Commissioner, with the approval of the State Board of Education, shall define the scope and level of student performance on Statewide assessments that demonstrate thorough understanding of the knowledge and skills delineated by the NJSLS at grade levels three through twelve. After consultation with the Commissioner, the State Board of Education shall establish by resolution uniform Statewide criteria defining adequate school district progress toward meeting the NJSLS.
Pursuant to N.J.A.C. 6A:8-4.1(b) and (c), all students at grade levels three through twelve, and at any other grade(s) designated by the Commissioner pursuant to N.J.A.C. 6A:8-4.1(a), shall take all appropriate Statewide assessments as scheduled. There is no provision for a student to opt out of Statewide assessments. If a student is absent on a testing date, the student will be expected to take the missed test on another school day. Parents and students will be informed of all scheduled testing dates, including make up testing dates for students who missed the initial testing date. The school district will provide accommodations or modifications to the Statewide assessment system in accordance with the provisions of N.J.A.C. 6A:8-4.1(d).

The Board may administer the Statewide assessments in mathematics to ELLs in their native language, when available,
The Board of Trustees shall have the option for a first-year ELL of substituting a Department of Education approved language proficiency test only for the English language arts section of the elementary or middle school component of the Statewide assessment, when the student has entered the United States after July 1 of the calendar year prior to the test administration.

The Board of Trustees shall ensure students with disabilities as defined in N.J.A.C. 6A:14-1.3 shall participate in Statewide assessments in accordance with N.J.A.C. 6A:14-4.10. The school district shall administer the alternative State assessment for students with disabilities in accordance with provisions of N.J.A.C. 6A:9-4.1 (d).

The school district shall implement alternative ways for students to demonstrate graduation proficiency in accordance with N.J.A.C. 6A:8-5.1(a), (f), (g), (h), or (i), as applicable.

The Superintendent shall report assessment results to the public and provide educators, parents, and students with assessment results in accordance with the provisions of N.J.A.C. 6A:8-4.3.

At specific times prescribed by the Commissioner of Education, the Board of Trustees shall administer the alternative assessment for students with disabilities to students with severe disabilities who cannot participate in other assessments due to the severity of their disabilities. The Department of Education shall implement the alternative assessment for students with disabilities according to the schedules in N.J.A.C. 6A:8-4.1(c)1, 2, and 3. The alternative assessment for students with disabilities measures the progress of students who have been determined eligible for the alternative assessment for students with disabilities by the IEP team in accordance with N.J.A.C. 6A:14-4.10.

Test Administration Procedures and Security Measures

The Board of Trustees shall be responsible for ensuring the security of all components of the Statewide assessment system that are administered within the school. All Statewide assessments shall be administered in accordance with the Department of Education’s required test administration procedures and security measures. Any breach of such procedures or measures shall be immediately reported to the Head of School or designee.

Documentation of Student Achievement
The Department of Education shall provide the Head of School with documentation of student performance after each test administration in accordance with the provisions of N.J.A.C. 6A:8-4.2(a). Information regarding individual student test scores shall only be released in accordance with Federal and State law.

The Board of Trustees shall transmit within ten business days any official records, including transcripts, of students who transfer to other school districts or institutions.
