Making this Mask Was Somewhat Hard My Concept was a Cat Mask Originally I was gonna put Mini Cat ears so the cat ears wouldn't block the face but I had a hard time doing it. I made cat ears that were Perfect but weren't small. But I went with it anyways, The Blue mask was the base of the mask I Sketched the whole Blueprint of the Mask. I had to throw away part of The Concept because the black in the blue mask I put in didn't go so well. So I decided to Start over. I used a black mask that was already Black and glued the cat ears to the mask and Putted Tape on the Cat Ears. Then one day I took the tape off and it was Kinda Perfect. This Was the First Mask I made. This was the Finished Product when I started over.

I used some markers and a mask to create this. I wanted to do this because this one time me and my mom went to this little area and the grass was so long and there were lots of sunflowers and it seemed very calm and relaxing to me. So I wanted to recreate that scene onto my mask. I kinda regretted not using paint because the markers made the mask seem really faded and I didn't like that because it didn't give me the colors I wanted, but next time I do this I will definitely use paint. Creating this artwork made me learn that I should be more open minded about the beautiful things around me. I want people to be more appreciative of and more open minded about the beautiful nature around us.

In this piece of art I used watercolor paint, sharpie, pencil, sketch book. Well during this time we need to wear masks to keep people safe and it's almost Valentine's Day so I decided but I should draw a mask with a heart on it and colorful colors to decorate. one difficulty I have when creating my mask was trying to keep the colors all together because they would fall all over the place. I overcame this challenge and I decided that I needed to go to my workspace area so I sat down at the desk and tried to be as careful as possible. One thing I learned while creating this artwork was that my artwork does it have to be perfect I just have to try my best. If someone saw my artwork I'd want them to feel loved and appreciated when they see this artwork. You guys do the pandemic I think this mask would make them feel much better and less stressed.

I use snow for my materials. The artist that made all his art work outside his name was Andrew and that really inspired me. One challenge was I made it yesterday and some snow cornered the mouth a little but it is ok because I got a picture before more snow came down. I learned that to make your art work when it is confirmed it is not gonna snow anymore. I want people to know that I can make very good faces in the snow. This is my artist statement.

My Winter Art Project

This Picture wasn't that hard but i put a lot of effort into this art It doesn't look that bad to me. It took me two days to make, I used paint to make this. And I was inspired by Christmas mostly Since it was a Winter Choice project why not make it christmas. The Challenge I had was when I forgot to put the white snow at the bottom of the paper and put dark blue for the background. When I put white on the blue it turned out as light blue but it didn't look so bad. I want people to know that snow can't always be that bad, But I'm not allowed to play in the snow that much. I learned that I should probably Make a Model of what will go in the painting like using pencil.

My Name Design Project

I had fun making this project but I had some problems, The black marker kind of looked bad and it was running out a bit. So I used a Different Marker. Then I had another problem. I wanted to make the lines on the art smooth and perfect. So I Kept Going over the first line I made but that led The Marker to Run out. I forgot to mention that I used Black Markers and Sharpies. I was inspired by The Artwork that was shown as an example to make. I put Mostly Some Things I loved in the Artwork. I learned I should've listened and used a ruler for the lines. I feel great what It turned out to be like Finished Product.

The detail on the show represent styles that I enjoy to wear as in clothes. I used pencils, Sharpie, and markers. The challenge I had was on the back of the shoe there was a curve that made it seem like a baby shoe and I fixed it by making it a straight line then curved at the top where you would normally put your feet. I learned that art is just a pattern of lines and you can always overcome your challenges.

I used my sketch pad, markers, acrylic paint and construction paper. I've always wanted to travel the world and to have adventures when I'm older. I am representing Hawaii, A spa resort, and the Eiffel Tower in my work. I added me and my sister. In this story I have my private jet and I use it to go to Hawaii, to a spa and the Eiffel tower, when I go to these places I take pictures, make new friends, and learn new things about these places. Some challenges I faced were forgetting to put a background on my art and not having enough construction paper. I learned not to try so hard in making everything perfect because I now know that it will not come out the way I want it.
