

6th Grade Year-End Events: Behavioral and Academic Expectations Rubric

We have planned our traditional year-end activities and events for 6th graders. It is our hope that all students participate, but the events are special celebrations of the student and his/her time at Link and they are a privilege, rather than a right. To be able to participate in these events, students must continue to live the Core Values. If a student does not, he or she may be excluded from an activity/event. Here is a rubric that will determine if a student may participate in year-end events:
